

# Abandoned Children's Fund's Mission

is to provide for innocent orphans; cruelly abandoned, alone, hungry, desperate and terrified victims of disease, war and extreme poverty.

In 2018,  
more than  
**\$3,000,000**

in aid, medicine and programs\* were delivered to poor children and families by Abandoned Children's Fund.

## Medical Donations

One of the most effective and cost-efficient ways we are able to provide care for suffering people in poor nations is to donate desperately needed medicines and medical supplies to qualified health care professionals.

In 2018, we were so thankful to be able to ship more than **\$3,000,000** in donated medicines and medical supplies. The outpour of thanks we receive from our partners and from recipients of these medicines, demonstrates the great nature of this kind of support.

These medical shipments are a vital component to our children's homes, schools, and feeding programs as they provide highly needed medical care to families who otherwise might not have the opportunity to seek medical attention.

## Financial Information

Donations Received:\* \$4,135,706  
Donations Distributed:\* \$4,178,802

Programs\*  
\$3,431,731  
Management  
\$96,849  
Fundraising  
\$650,222

Abandoned Children's Fund®

2018 Annual Report

### Haiti

In Haiti our partners have worked to build a rural health clinic which serves tens of thousands of children and families. Everyday infants and children are brought to the clinic where they are treated for many illnesses common in Haiti. In 2018 we also partnered with a caring group of volunteers to ship over **300,000** meals for abandoned children in Haiti.

*I had the pleasure of visiting the Haiti clinic this year and seeing the beautiful children that we work so hard to save. The children were welcoming and truly happy to see their friends from the US. Their smiles of gratitude lit up the room.*  
— Shauna Tait, Project Coordinator

### Mexico

With the help of our donors, ACF and our partners are able to provide care for children who have been neglected and abused. Being in Jaurez, one of the most dangerous cities in the world, we are answering prayers one child at a time. Bringing the innocent children to a place of protection and healing as well as providing them with an education to further their chances at a healthy and happy future.

### Honduras

ACF is proud to partner with local government officials, hospitals, clinics and doctors to send urgently needed medication to care for families in need. The hospitals and clinics which receive and distribute ACF donated medicine, are able to give medical attention to countless families that may not otherwise receive the help desperately needed.

### Ghana

ACF donors make it possible for us to provide feeding programs for abandoned families while they struggle to survive years of war and genocide. Through ACF, hundreds of refugees in Ghana have received nutritious food, clothing, shoes and free healthcare. That would not be possible without the care and generosity of our donors.

### Zambia

Children in Zambia are rescued by our partners after being abandoned at the hospital the day they are born, or rescued from severe abuse. Some were rescued from the streets of Zambia where there was no one to care for them. With the help of ACF, children like these are given daily meals, a loving home, and 24 hour care with trained nurses who have experience in helping children suffering from grief, trauma and terrible loss.

### Kenya

Our partners in Kenya focus on providing clean drinking water, education and medicines for children and families of all ages. Unsafe water is a leading cause of disease and death. Over 50% of patients hospitalized are suffering from water related illnesses that may be fatal. We will be continuing our support to help provide clean water and education to the children in Kenya.

### Uganda

Our focus is to help give the children of Uganda a daily meal, clean drinking water, much needed medical supplies, an education and hope for a bright future. Children in Uganda are often abandoned by their parents due to death, disease or drugs. These young children are then left to care for themselves and their younger siblings. This past year we have helped fund vocational schools and ongoing feeding programs for the children. These programs give abandoned children a meal that they don't have to fight or beg for, a meal that all children deserve. With the help of ACF these schools are able to provide meals, clean drinking water, and the children gain knowledge and life skills to keep them off the streets and away from a life of crime.

### South Sudan

With the continued support of ACF our partners are helping to aid and protect the refugees who have fled terrible genocide and starvation. Providing emergency feeding for the families desperate to escape the daily threats of war and abuse.

### Philippines

Through ACF and our partners, thousands of children, ages 3 to 15 years old received meals in more than 200 of the worst poverty stricken areas in the Philippines. Children living in garbage dumps and under bridges were given a hot meal that they didn't have to scavenge for, a meal that wasn't rancid scraps from a pile of garbage. With your help we can continue to provide much needed funding to keep food in the empty bellies of these precious children.
